

Chapitre I :

A Title

« This is an epigraph paragraph style where the footnote reference mark appears correctly—and that's good news »¹.

Introduction

However, this is a regular paragraph style, and, when using this style (or other paragraph styles like it), the footnote reference marks appear in normal script and not, as they should, in superscript—and I just can't figure out where the problem is.²

Do you see what I mean ? The number « 2 » appears in normal script—but it shouldn't.

And so does the number « 3 » right after this sentence.³
